DEMAND NOTICE

FM likely to leave out telcos' demand for licence fee cut

BUDGET

JATIN GROVER New Delhi, January 13

THE UPCOMING BUDGET will likely skip the telecom industry's key demand on reduction in licence fee by way of a cut in universal services obligation levy, removal of Goods and Services Tax (GST) on licence fee, spectrum usage charges, and spectrum payments, among others, according to officials.

The announcements related to the telecom sector in the Budget will largely be around fund allocation from the Universal Service Obligation Fund (USOF) for last-mile connectivity and different R&D projects, BharatNet project for broadband connectivity in rural areas and the allocation of funds for state-owned BSNL from the already approved package.Out of the ₹1.64 trillion revival package for BSNL announced last year, the cash component was ₹43,964 which included support for capital expenditure as well as viability gap funding for services in rural areas.The allocation for BSNL will

■ The telcos have been asking for a reduction in license fee to 6% of their AGR from the current 8%

■ The COAI has pushed for a reduction in USOF contribution by telcos

be out of this package itself. Among key demands, the telecom companies have been asking for a reduction in license fee to 6% of their AGR (adjusted gross revenue) from the current 8%. However, sources in the know said the same is not expected to be taken up by the finance ministry for the upcoming Budget."The matter for the reduction in licence fee would not be taken anytime soon as the

government has already given a huge relief to the industry with the telecom reforms in September 2021," a senior government official said.

Apart from the reduction in licence fee, the Cellular Operators Association of India (COAI) has pushed for a reduction in USOF contribution by telecom operators, refund of accumulated input tax credit of ₹32,000 crore on GST, reductions in customs duties on key network equipments etc. Besides, Delhi-based Digital Infrastructure Providers Association, which represents various tower companies, has also sought a refund of ₹18,000 crore towards input tax credit on equipments at telecom towers.

"This (reduction in levies) will leave more funds with TSPs (telecom service providers) for expansion, increase liquidity, facilitate investments required to complete the Digital India Vision and 5G rollouts, and also keep tariffs at affordable levels,"COAI said.

The Budget in 2022 also did not mention any major announcements on the telecom sector largely due to mega reforms for the sector announced in September 2021 that had simplified a number of structural and procedural reforms to promote healthy competition, protect consumers' interest, infuse liquidity, encourage investment, and reduce the regulatory burden on telecom service providers.

The reforms also included moratorium on regulatory dues of telecom operators, rationalisation of adjusted gross revenues and bank guarantees, and allowing 100% foreign direct investment through the automatic route.

2021 figure of \$69.38 billion. This is the first time the trade deficit, a serious concern constantly expressed by India, has crossed the \$100 billion mark.

In 2021, the overall trade with China totalled \$125.62 billion, an increase of 43.32% year-on-year crossing the \$100 billion mark for the first time. The trade deficit in 2021 stood at \$69.56 billion as India's imports from China 46.14% to reach \$97.59 billion. India's exports to China increased by 34.28% year on year to reach \$28.03 billion in 2021. The trade between the two countries continued to boom despite border tensions following the military standoff in eastern Ladakh in May

According to an official brief on trade posted on the Indian Embassy website in Beijing, the rapid expansion of India-China bilateral trade since the beginning of this century has propelled China to emerge as India's largest goods trading partner by 2008. Since the beginning of the last decade, bilateral trade between the two countries has recorded exponential growth.

From 2015 to 2021, India-China bilateral trade grew by 75.30%, an average yearly growth of 12.55%, it said.

Officials say that while trade with China thrived on the availability of cheap Chi nese goods to India, it has continuously resulted in the spiralling trade deficit India had with any other country.

"Our trade deficit concerns are two-pronged. One is the actual size of the deficit. Two is the fact that the imbalance has continuously been widening year after year," the Embassy brief said.

PRESS TRUST OF INDIA New Delhi, January 13

COMMERCE AND INDUSTRY Minister Piyush Goyal on Friday pitched for increasing efforts at the World Trade Organisation (WTO) for getting patent waivers for diagnostics and the rapeutics used to deal with the Covid-19 pandemic.

It was agreed to start talks on including therapeutics and diagnostics, as proposed by India and South Africa, under the purview of this waiver after six months. Goyal also said that there is a need for de-politicization of the global supply of essential medicines.
